

Request for Quote # 090094
Addendum #1

11/5/08

To Whom It May Concern,

Fish, Wildlife and Parks is making the following changes/additions to Request for Quote # 090094 posted on October 21, 2008. The changes are as follows:

Scope of Work on Page 6, #1, #2 and #3:

- Add the following wording: The development of the rating curves will be conducted in consultation with FWP and DNRC and will follow USGS protocol. The rating curves will be based on the minimum of six data points.

Scope of Work Page 6, #5:

- Change to read: At six cross-sections (One (1) pool and one (1) riffle at the top, bottom and middle reaches) a representative pebble count and an active bed riffle pebble count will be taken to determine channel type and to be used in hydraulic calculations (Rosgen 2008)

Please sign this addendum #1 and return with your bid proposals due on November 21, 2008. I apologize for any inconvenience this may have caused. Thank you for your cooperation.
